Secret evidence

Dear Sir:

After reading the article SECRET EVIDENCE ON THE KENNEDY ASSASSINATION by David Wise in the April 6 issue, I believe one thing for sure. Presidential hopeful Richard M. Nixon could make good his promise to shut down the war in Vietnam by simply turning the whole business over to the Warren Commission for investigation. We would probably never hear of it again!

Dear Sirs:

I just finished reading your article on the Kennedy assassination and was disappointed to see that you are using the same tactics as the sensation-seeking magazines—provocative titles and very little substance to the article. You have said nothing that hasn't been hashed over before.

Dear Sir:

Neither Chief Justice Warren nor anyone else has the right to say that the files on the assassination of Kennedy will not be opened in our lifetime. They *must* be opened at once and this mystery cleared.
